1. Applicant's election of Group I, claims 1-11, in the reply filed on 20 September 2006 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

This application is in condition for allowance except for the presence of claim 12 directed to an invention non-elected without traverse. Accordingly, **claim 12 has been cancelled**.

3. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach or fairly suggest a molding machine including a supporting mount which supports respective end portions of tie bars which are inserted through a movable platen, the movable platen and the supporting mount being disposed on a base plate so as to be capable of advancing and retreating with respect to a fixed platen disposed on the base plate; die opening/closing means for advancing and retreating the movable platen and the supporting mount for opening and closing a movable die in relation to a fixed die, and for retreating the supporting mount from the movable platen after opening the die; a lock mechanism provided in the fixed platen which locks and unlocks the other end portion of each tie bar which is inserted in the fixed platen when closing the die; and die clamping means disposed between the movable

platen and the supporting mount for moving the movable platen toward the fixed platen to generate a clamping force between the fixed die and the movable die, as claimed in claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
